- C#, Python, JavaScript, PHP
- .NET, ASP.NET, React, Node.js, Flutter
- WPF, WinForms, XAML
- Azure, Docker, Git, Bare-metal Hypervisor
- MSSQL, MySQL, MariaDB
- RestfulAPI, Agile

Soft Skills:

- Technical Documentation
- Cross-functional Collaboration
- Problem Solving & Analysis

LANGUAGES

- Cantonese (Native)
- Mandarin (Fluent)
- English (Fluent)

PROFILE

Full-Stack Developer with 3 years of experience in end-to-end solutions for POS/Kiosk systems and scalable web applications (C#, React, FastAPI). Skilled in designing architectures, developing reusable libraries and test tools, and integrating software with hardware (setup/deployment) for both Windows and Linux environments. Effective communicator who collaborates with cross-functional teams to deliver solutions aligned with business needs.

Planning to pursue a Master's degree in Australia from early March 2027, and particularly interested in opportunities with the potential to transition to fully remote work while studying.

Development Life-cycle Experience:

- Requirements to Design (Flowcharts, API specs)
- Coding to Testing (writing test specs, debugging)
- Deployment to Maintenance (hardware setup, user manuals)

EMPLOYMENT HISTORY

Programmer (Full-time)

KML Engineering Limited | *Oct 2022 – Jul 2025* *Hong Kong*

- **Real-Time Safety System Upgrade:** Full-stack modernization of pedestrian alert platform; engineered MQTT messaging layer with MariaDB on Ubuntu; added dynamic alert rules using JsonLogic.
- **Fare Collection Systems:** Upgraded QR payment system for enhanced security and unfinished transaction handling; developed Windows POS/Kiosk apps with credit card, QR payment, and Octopus card integration; deployed and configured 10+ terminals across ferry terminals.
- **Hardware Test Tools:** Created a cross-platform testing suite (React/Python) for gate controller systems.
- **AI Customer Services:** Built AI server, user library, and test tool.

Junior Programmer (Full-time)

KML Engineering Limited | *Jul 2022 – Sep 2022* *Hong Kong*

- Assisted in development and maintenance of existing systems
- Participated in code reviews and team meetings
- Developed foundational skills in software development processes

HOBBIES

- Guitar
- Anime
- Video games
- Theatre

STEAM Teacher (Part-time)

Crystal STEAM | *Nov 2021 – Jun 2022* *Hong Kong*

- Designed and taught Scratch programming lessons targeting children in English and Mandarin
- Created engaging educational materials and activities

STEM Curriculum Developer (Freelance)

Krystal Institute | *Apr 2021 – Jun 2021* *Hong Kong*

- Designed beginner programming curriculum (HTML, CSS, JavaScript) for adults in English
- Prepared written and programming exercises and tests for students
- Created PowerPoint slides and lecturer notes

EDUCATION

BSc (Hons) Information Technology for Business

Coventry University | Sep 2019 – Aug 2022
